

International Conference

Gender Equality in the Workplace

Learn from the Best!

September 13th

10.00-15.00

Royal Olympic

Hotel

Athens

Greece

Content:

Gender Equality is much more than just a matter of ethics and equal opportunity! It is also a very important way of dealing with the current economic situation, demographic changes and skills shortages.

This conference, organised by the partnership of the GenCo Project, will provide information about gender equality measures and offer insights into good practice currently being applied in European organisations.
